MEDIA REPORTS ON THE PURPORTED STRIKE

Mumias Sugar Company wishes to reiterate its position following information released to the Media from some quarters that our employees are on strike. I wish to point out that the procedure of calling a strike is well defined within our Collective Bargaining Agreement with the union and so no strike as such exists.

Further, the Management of the company would wish to state that there is no dispute whatsoever between members of its workforce and the management that is pending resolution. It is important to note that the factory is crushing and operations are ongoing.

We thank ALL our stakeholders including our workforce for their continued support.

A handwritten signature in dark ink, appearing to read 'Errol D. Jonston', is written over the printed name.
